

DeFranco
Elementary

Teachers developed interactive activities for students with content relevant to the PSSA test...but the kids will never know. They will be too busy having fun!

Some examples:

- Text Structure Relay Race Puzzle
- Grammar Obstacle Course
- Order of Operations Connect 4
- Math Facts Jenga
- Written expression bowling
- Literature 4 Square
- Computation Memory

SOCIAL STUDIES/SCIENCE

CONFLICT RESOLUTION

During Social Studies and Science time all students will participate in a conflict resolution activity in which they will learn the ways to resolve a conflict, potential scenarios and how to apply it to their every day life.

(BASD Community Parent
Advisory Committee)**

WHAT WE
"WON'T"

DO

Our district goal is to have a day for students to "turn off" and "tune in"!

While technology can be an excellent advantage for students in the instructional setting, it is equally important to remind them of the benefits of face to face interactions without the distraction of devices.

APRIL 21, 2023
OUR
PLAN

Peer INTERVIEW

	Student questions:
	Think of your own question(s) to add here!

ELA

Students will interview a peer and then share out some fun facts to the rest of the class.

It's All in the Numbers
All About Me Math Style

Write an equation to represent the day you were born.

#4

MATH

Students will either create a Math wheel based on facts about them or participate in a math activity creating equations based on similar information.
